To whom it may concern,

With immense pleasure, I am writing this letter of recommendation for Suraj, who has been working as an analyst at Merkle for the past couple of years and was my direct report. Throughout our time together, he has proven to be a reliable and diligent employee, consistently demonstrating his independent and adaptable nature.

During his time at Merkle, he demonstrated very strong technical skills and expertise in programming by learning and working with various tools like Qualtrics and Alchemer to provide support to teams aligned with multiple clients. In the fourth quarter of 2023, he was honored with a Climb High Award for seamlessly executing multiple projects in parallel without much support from seniors, which was exceptional considering his level of experience.

His strong work ethic and professionalism has earned him great admiration and respect among his colleagues. His ability to quickly learn and adjust to any new requirements is truly commendable and will undoubtedly be valuable wherever he goes.

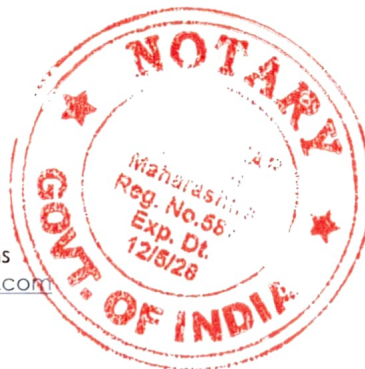

Having interacted and worked closely with Suraj, he has proven his competency, professionalism, and efficiency to the fullest. I am confident that he would be a huge resource for your organization, and he has my most noteworthy proposal.

Please feel free to reach out to me in case of any further questions.
